GS5- Reduce waste and materials outputs

sustainability
management

Course objectives: This training aims at facing the foundational concepts and implications of the circular transition, namely the transition from linear economy models to circular ones.

Target group: Entrepreneurs, consultants, Higher VET students, professionals.

Format and Duration: 8 hours online + 16 hours onsite

Why this course? Participants will learn from company case studies, presenting different kinds of circular business models in the advanced manufacturing, wood and furniture and textile sectors. They will also learn about waste management strategies and second raw materials markets.
