GS7- Measure and report sustainability performance

sustainability
management

Course objectives: This training aims at developing the most critical competencies needed to start measuring and reporting sustainability performance in companies, focusing on the EU - CSRD Corporate Sustainability Reporting Directive compliance and practical implementation skills.

Target group: Entrepreneurs, Higher VET students, professionals working on quality management, plant engineers, and consultants who need rapid competency development in sustainability reporting

Format and Duration: 8 hours online + 16 hours onsite

Why this course? Participants will learn to apply EU sustainability reporting standards (CSRD/ESRS), measure ESG performance, ensure regulatory compliance, and produce transparent, audit-ready sustainability reports to strengthen organisational competitiveness.
